BUILT PROJECTS

Web Application Full Management System

<https://www.amazingpetgrooming.ca/>

This React/Node Application was built for a Pet Grooming business. The admin of the page is able to add employees into the system, so they can login to the private pages based on their roles, where they can manage the clients' database, add appointments to their own Calendars and adjust their working hours. Customers are also able to book appointments online. This Application solved several issues this business faced in the past.

SKILLS

FRONT-END

React
Typescript
Next Js
Javascript
HTML
CSS/SASS
CSS Modules
Bootstrap
JQuery
Handlebars
Rest API
Apollo Client
Firebase
Shopify / Liquid
