

# Alex Y Sanabria

## Full Stack Developer

Experienced Full Stack Web Developer with a proven ability to design and build complex web applications, from initial concept through deployment. Skilled in both front-end and back-end technologies with a focus on creating efficient, scalable solutions. Adept at collaborating with cross-functional teams and following Agile methodologies. Highly organized, quick learner, and dedicated to delivering high-quality results on time.

### EXPERIENCE

*Elite Digital* – (Lead Full stack Developer) Toronto,, ON  
Dec 2021 – June 2024

- Led the development of multiple full-stack web applications, ensuring end-to-end project success from planning to maintenance.
- Collaborated with cross-functional teams, optimizing the user experience and integrating client feedback into project improvements.
- Developed project roadmaps, managed resource allocation, and ensured timely delivery of milestones using Agile methodologies.
- Identified and resolved technical issues, enhancing project performance and team productivity.

*Isara (Through Aerotek/AcTalent)* – (Full stack Developer Remote) Waterloo, ON Jan 2021 – Dec 2021

- Contributed to the Advance Project, working in a large team of 30+ developers and testers to build, debug, and test front-end and back-end components.
- Conducted thorough code reviews, ensuring code quality and best practices were followed before merging branches into the base code.
- Worked closely with other developers to implement new features, enhance application performance, and resolve bugs.

*Amazing Pet Grooming* – (Graphic Designer / Web Developer) Milton, ON

2016 - 2020

- Designed and developed logos, marketing materials, and a full-stack web application to streamline employee and client scheduling.
- Developed a custom React/Node.js application for managing employee hours and customer appointments, significantly improving operational efficiency.
- Provided IT support, solving daily technical challenges to ensure smooth business operations.

### PRIVATE PROJECT COLLABORATION

*Isara Advance Crypto Agility Suite* *Cryptographic management platform*: <https://www.isara.com>

Collaborated on the development of an enterprise solution for managing, discovering, and remediating cryptographic infrastructures. Worked alongside a multidisciplinary team to enhance platform functionality and security.

### NOTABLE PROJECTS

*Web Application Full Management System*  
<https://www.amazingpetgrooming.ca>

Built a custom React/Node.js application for a pet grooming business, integrating an employee management system and client appointment booking.

Enabled role-based access control, allowing employees to manage client data, adjust working hours, and handle bookings.

The solution addressed multiple operational challenges, providing a streamlined, user-friendly experience for both staff and customers.

### TECHNICAL SKILLS

#### Front-End:

React, Next.js, JavaScript, TypeScript, HTML, CSS/SASS, CSS Modules, TailwindCss, Bootstrap, JQuery, Handlebars, Apollo Client, Firebase, Shopify/Liquid

#### Back-End:

Node.js, Express, MySQL, PostgreSQL, MongoDB, FaunaDB, Sanity, GraphQL, Solr, JWT Authentication, Passport.js, REST API, NodeMailer, Postmark, SendGrid, AWS, Google Cloud (Maps, Authentication, Drive, etc.)

#### Mobile Development:

React Native

#### Other Technologies:

Git, Bash, GitHub, GitLab, Docker, MVC Pattern, Cypress Testing, Data/Site Migrations, Illustrator, Photoshop, After Effects, Windows/Mac.

### LANGUAGES

English, Spanish (Bilingual)

### EDUCATION

*University of Toronto, Toronto, ON*  
*Full-Stack Web Development Bootcamp* | 2018 – 2019

- Intensive program focused on designing and building full-stack web applications, covering front-end and back-end development with modern frameworks.

*Compu-Ingenieros, Bogotá, COL*

*Computer Programming Program* | 2002 – 2003

- Two-year program covering Visual Basic, computer maintenance, and graphic design (Photoshop/Illustrator).
